DREER'S RELIABLE SEEDS

FOR MARKET GARDENERS

DREER'S SEED STORES, 714-716 Chestnut Street

Cash with order. Please send remittance with the order sufficient to cover the whole bill. Remittances should be made by Post-Office Money Order, Drafts on Philadelphia or New York Banks, or Express Money Orders. We disclaim all responsibility when remittances are not made as above directed. Where it is not possible to obtain these, the letter should be registered.

Non-warranty. While we take every precaution to have our seeds pure and of the best quality, we do not give any warranty, express or implied, either as to quality, productiveness, or any other condition, and will not be in any way responsible for the crop. Every order for articles named in this catalogue will be accepted on these conditions only.

Special low express rates. As seeds are now taken, when packed in boxes or bags, by Express Companies at the second-class rate, it is a great advantage to those ordering in quantities which are not offered postpaid to have their orders shipped by express. Large quantities can be shipped cheapest by freight, but require a longer time in transit. If the manner of shipment is left to us, we will always use our best judgment in the matter and decide to the interest of the customer.

Packing. We give special care to packing all orders for Vegetable Seeds and make no charge for boxes, nor for delivery to freight depots or express offices in Philadelphia.

PLANT DEPARTMENT.

We grow large quantities of Palms, Ferns, and other plants, such as Roses, Dahlias, Cannas, Geraniums, etc. These are described in our *Garden Book for 1921*, a copy of which will be mailed free.

Fully realizing the great importance of "Good Seeds" for the market gardener, we have always used our best endeavors to furnish such quality as we would demand ourselves were we growing vegetables for market, and the care given in the production and handling of these seeds has gained for us thousands of customers throughout the United States, many of whom are leaders in the production of vegetables for the markets.

We make careful tests of almost every variety offered by the Seed Trade, and the list of which this special catalogue is comprised represents the cream of the productions of ourselves and the leading seed growers throughout the world, and are the best of their kind.

We hope for a continuance of the patronage of our regular customers, and also at least a trial order from those Market Gardeners who have not as yet planted Dreer's Reliable Seeds.

Very truly yours,

HENRY A. DREER.

Seeds by Parcel Post. We deliver postpaid to any Post Office in the United States, all orders for ounces, quarter-pounds and single pounds of Vegetable Seeds unless otherwise specified. If Beans, Sweet Corn, or Peas are wanted sent by Parcel Post, add extra at the rates given at top of page on which these seeds are offered. Bulky items, such as Field and Grass Seeds, Onion Sets, Potatoes, Vegetable Plants and Roots, Fertilizers, Insecticides, Garden Implements and Requisites of all kinds are sent by express, or freight at purchaser's expense.

Its general characteristics stamp it as the best main crop variety of its type, and we are pleased to offer it to our customers, feeling sure that it will fully satisfy all who desire to grow large onions the first season from seed. The bulbs are true globe-shape, with skin of a pleasing yellow color, flesh white and of a mild flavor, which will please and satisfy everyone. It is not the ordinary Southport Yellow Globe, but it is far superior, much more productive, and on account of its fine appearance will sell quicker on the market. It makes a rapid growth, the bulb maturing at an early season, and its attractive appearance makes it a good sort for market. It has long been a favorite with the large growers of Onion sets, as it not only makes a fine looking set but also keeps well. Oz., 20 cts.; $\frac{1}{4}$ lb., 60 cts.; lb., \$2.00; 5 lbs. or more at \$1.75 per lb.

It is the best variety of Onion for use in growing the large bulbs from transplanted plants which have been raised in hot-bed, and for this purpose is now more largely used than any other sort. The handsome appearance of this onion, together with large size, make it desirable for growing for the market. Oz., 25 cts.; $\frac{1}{4}$ lb., 70 cts.; lb., \$2.25; 5 lbs. or more at \$2.00 per lb.

Planet Jr. Farm and Garden Tools

The new Planet Jr. Catalogue, with 184 illustrations, showing a complete line of tools, mailed free on application

Planet Jr. Hand Cultivators have become the Market Gardener's and Nurseyman's friend, being no task in using them, they are in constant operation thereby not only keeping the weeds down, but also keeping the soil mellow and broken. Plants must thrive under these conditions. The above shows these tools in use at our Nurseries, Riverton, Riverview and Locust Farm.

Planet Jr. No. 3 Hill and Drill Seeder

Price, \$21.25

This drill will sow in a continuous row in the ordinary way with the greatest regularity, but its distinctive feature is that it will drop neatly in hills either 4, 6, 8, 12 or 24 inches apart. It is changed in a moment from hill to drill work; the plow is adjustable for depth and opens a very narrow furrow. Capacity two and one-half quarts.

No. 25 Planet Jr. Combined Hill and Drill Seeder and Double Wheel Hoe, Cultivator and Plow.

Price, \$25.75.

This combined machine is intended for gardeners who have a large enough acreage in crops for a Double Wheel Hoe to be used to good advantage, and yet prefer not to buy seeders and wheel hoes separately.

As a seeder it is practically the same as Planet Jr. No. 4. Will sow in drills any thickness or drop in hills 4, 6, 8, 12 or 24 inches apart, and has the same feed, hill dropping mechanism, and automatic device for stopping the feed, and has also the new seed index. It is thoroughly substantial and is accurate in planting all kinds of garden seeds in either hills or drills.

Planet Jr. Double Wheel Hoes are the greatest cultivating tools in the world for the onion and sugar-beet grower, and for every grower of garden and market garden crops from drilled seed. A tool that will save your time, lighten your labor and increase the yield of your crops by thorough cultivation.

Price, with Wheel, \$15.75
Price, less Wheel (101D), \$13.75

Planet Jr. No. 8 Horse Hoe and Cultivator

Price, \$23.50
Without Depth Regulator order as No. 7 \$23.75
No. 9 Plain Horse Hoe with cast wheel \$21.50

Planet Jr. Combined Horse Hoe and Cultivator. Is light and easy to handle. It opens and closes furrows, hoes right up to the plants without danger of injuring, throws dirt to or from the row and throws back from center again. Price, \$23.50
No. 90 B (Less Pulverizer), \$19.75
No. 90 D (Less Wheel and Pulverizer), \$16.00

The farmer or gardener is most likely to cultivate best who has the tool best adapted to his purpose. With the Twelve-Tooth Harrow here shown you go as deep or shallow as you like, come up close to row without injuring plants, cut out all the weeds, stir the soil, and mellow and fine it as with a garden rake. You widen and narrow as you please between 12 and 32 inches. It's a special favorite with strawberry growers, market gardeners and truckers.

Planet, Jr., Double Celery Hiller

CELERY HILLERS are now considered indispensable. The leaf lifters are adjustable in height and are especially valuable for first workings. With their aid some of our best and largest growers hill their celery without any "handling." The double hiller only is fitted with lever wheel. The hilling blades are 43 inches long, adjustable in width or height as wanted; the double machine works all rows up to four feet apart. Before hilling, the soil should be thoroughly loosened with a horse hoe.
